

LDA Belgium Company Presentation

Version 2014

LDA - Your partner with experience and a vision

- LDA Corp. an independent Belgian company, distributes for over 50 years high quality components for industrial automation in Belgium and Luxemburg.
- LDA, together with his principal suppliers, has built an important customer network during those 50 years. We guarantee good service and quality. **LDA searches for customer specific solutions**. Our skills and experience are the building stones for **your** current and future success, delivering high quality, a long life time and a minimal energy consumption.

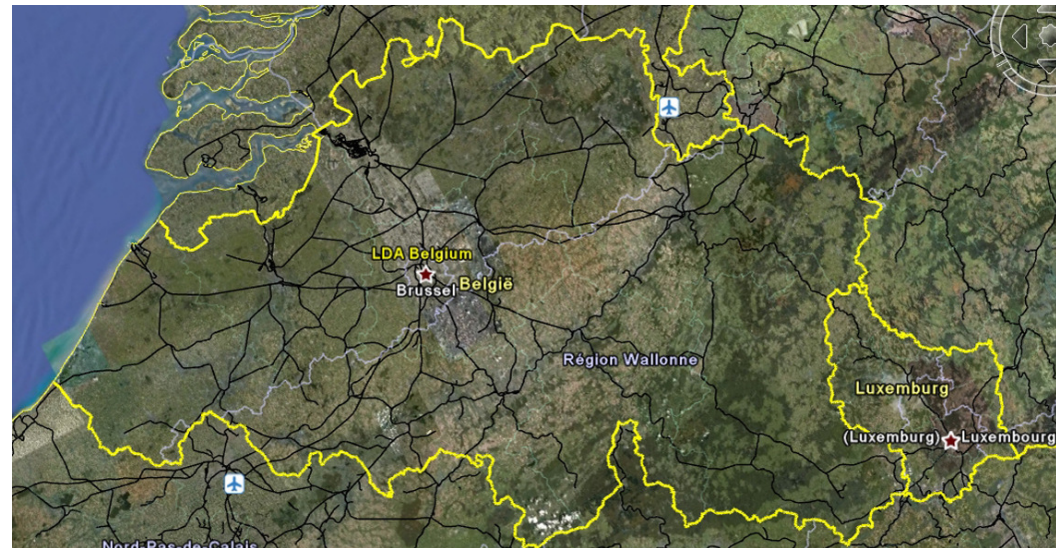

In short **SOLUTIONS FOR LIFE**.

- LDA is specialized in shock absorption and vibration isolation, pneumatic and fluid components, for which we also can offer total solutions. Thanks to more than 5 decades of experience and the direct support of our manufacturers, LDA is able to offer you optimal technical and economically efficient solutions, combined with a flawless logistic and administrative service.
